LATEST PLANETARIUM SHOWS

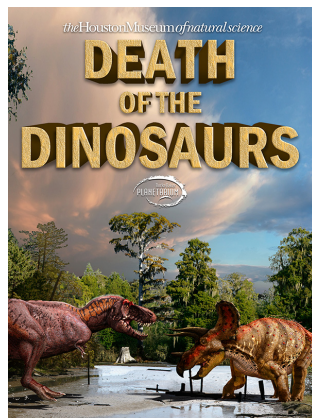

ARE WE REALLY ALONE?

In the past, UFO programs have been more science fiction and less hard science. Now with better telescopes, brighter computers, and advances in theoretical physics, we can tackle the most profound questions in astronomy and perhaps in all of human history: Are UFOs real? and are we really alone?

DEATH OF THE DINOSAURS

What killed the dinosaurs? See how these giants lived and survived on the Earth millions of years ago and watch the cataclysmic event that led to their ultimate extinction. Featuring animations, on-site locations of dinosaur fossil discoveries, and the world-class Hall of Paleontology at HMNS, you'll feel like you are right there with them from beginning to end!

EXPLORE ALL OUR SHOWS

Get info on and watch all our available shows on our website:

Many of our shows are available in numerous foreign languages. We have over 20 languages represented so far and are always looking for new vocal translations to offer. Every show and language we offer can be sampled via our language support page:

www.eplanetarium.com/support_languages.php

ePlanetarium is also working hard to add foreign language subtitles to all our shows. Adding new language subtitles is easy, and we can help you. A listing of all available subtitle languages we have so far is on our subtitle support page:

www.eplanetarium.com/support_subtitles.php

And see the list prices of the shows in various formats at our online store:

squareup.com/store/eplanetarium/

Several of our shows are available to rent on the streaming site FullDomeOnDemand.com for only \$30 for 3 days.

If you rent frequently, we will apply YOUR FULL RENTAL FEES towards the price of a full license. Want more of our shows on FoD? Let us know and we'll post them.

ECLIPSE & MOON MISSION ANIMATIONS

We are pleased to offer 10 FREE full-dome **eclipse animations** which show views of solar and lunar eclipses as seen from various viewpoints.

In addition we also feature animations about the **Apollo** and upcoming **Artemis** moon missions.

Visit our [Planetary Animation Request Form](#) to get access to all of our free animations.

NEW FREE SHOW

We are distributing a new FREE full-dome film entitled **FORWARD! TO THE MOON**

NASA's 21st century **Artemis program**, named after the Greek moon Goddess and twin of Apollo, is the next step in our mission to explore the universe and land the first woman and person of color on the surface of the Moon. Produced by **Fiske Planetarium** in collaboration with **TEND Studio**.
